

➤ Components:

- ✧ LED-based Light (main component), 1 set LED type: White / Green color LED
- ✧ Power Control:
 1. Dimmer
 2. LCD display
 3. Main switch
 4. Power conducting cable

➤ Programmable setting:

- ✧ Separate dimming range setting on White / Green LED: 0% ~ 100%
- ✧ A.-Collective flickering duration setting on White / Green LED: 0.1 ~ 10 seconds
-Collective light-off duration setting on White / Green LED: 0.1 ~ 10 seconds
- ✧ B.-Light-on duration setting on white LED: 0.1 ~ 10 seconds
- * White and Green LED can flicker separately in turn by adjustment.

➤ Specification:

Color	White + Green
Wavelength	510 nm
Input Voltage	AC 85 ~ 265V, 50/60 Hz
Current Draw	15A (@AC 100V)
Power Input	960W
Internal thermal Protection	Yes
Over Current Protection	Yes
Dimming range	0% ~100%
Lumens	Approx.46,728
Depth Rating	300m
Dimension & Weight of Main Component LED	520 x 180 mm (ϕ), 9.8 kg
Dimension & Weight of Power Supply	350 x 260 x150 mm (H), 7 kg
Length of Cable	30m / 50m / 100m / 150m / 300m
