

Thruster 1200W

Features

- ✧ Lightweight Design
- ✧ Integral Drive Electronics
- ✧ Various Connector & Voltage Options
- ✧ Magnetically coupled brushless DC motor

➤ Specification:

Mechanical	
Length	270mm
Diameter	65 mm (Housing) , 180 mm (Propeller duct)
In-air weight	3.65 kg
Weight in water	2.25 kg
Thrust-Forward	30 kgf
Thrust-Reversed	15 kgf
Connector	MCBH6M or optional
Standard Housing	Hard Anodized 6061-T6 Aluminum
Electrical	
Input Power	300 VDC, 4 A (150 V, 250 V selectable)
Speed Control	RS 485 / +5 V ~ -5 VDC analog
Environmental	
Depth Rating	750 m
Operation Temp.	-10 °C ~ 50 °C

*150V, 250V are also available

*Various series of magnet & oil filled thrusters from 300W to 2500W are available
