

MNUZ-4P1H

Megapixel recording, dual streaming and high-capacity RAID storage

IP surveillance NVR

- Max. 16-CH IP and Mega-Pixel cameras recording
- H.264, MPEG-4 and M-JPEG compression
- Digital zoom for live view and playback
- Dual streaming for recording and remote surveillance
- NVR software pre-installed on DOM module for rapid system deployment
- Enhanced Linux OS, well-protection against viruses and hackers
- Windows® remote client and WEB remote client support
- CMS and 3G mobile surveillance support

MNUZ-4P1H is equipped with 1 SATA II 2.5" hard disk slot, this NVR systems can support most of today's off-the shelf IP cameras and ONVIF cameras for up to 16 CH A/V recording and let you access your recordings quickly and reliably. With this NVR series, customers can rapid deploy their IP surveillance application with optimum surveillance and operating efficiency and delivers a better security and stability than the counter-part Windows® powered system.

Hardware Specification

4CH

Intel® Atom™

CPU: D525

DOM: 1GB, Memory: 4GB (in order to have better performance, suggest 4GB x 1 for 16CH or above)

VGA(D-Sub) x 1

Audio input*1, Audio output*1

USB2.0 : front*2, rear*4

2.5" SATA bay*1

Gigabit LAN port * 1

280(L)*280(W)* 710(H) mm
